BIOGRAPHY

As a dedicated developer and currently serving as an Oracle Systems and Database Administrator, I possess a broad range of expertise in Deep Learning, Machine Learning, and software development. I am distinguished by my capacity to tackle complex challenges, oversee multiple projects concurrently, and provide effective and innovative solutions.

I had the privilege of contributing to an open-source Node.js framework, enhancing my skills in development and collaboration on extensive technological projects.

PROFESSIONAL BACKGROUND

Oracle Data Guard Recovery for CARFO December 2024

- **Client:** NEBRATA Consulting and Innovation – Burkina Faso
- **Post:** System Administrator, Database Administrator
- **Mission:** To repair and configure the Oracle Data Guard environment, ensuring high data availability and business continuity.
- **Technical environment:** Oracle Database 11g, Data Guard, Linux (RHEL 6), RMAN, SSH, iSCSI.

Restoration and commissioning of Sofitex's Oracle 11G database following a cyberattack. December 2024

- **Client:** NEBRATA Consulting and Innovation – Burkina Faso
- **Post:** System Administrator, Database Administrator

Mission: Analyze the impacts of the cyberattack, recover compromised databases, and restore the operational functionality of critical systems.

Technical environment: Oracle 11g, RMAN, ASM, Windows Server, iSCSI, Data Pump, physical and logical backups.

Deployment of the SYC@D platform. November 2024

- **Client:** NEBRATA Consulting and Innovation – Burkina Faso

Post: System Administrator, Database Administrator

Mission: The installation and configuration of a land and cadastral platform to enhance the implementation of the land register and ensure the traceability of cadastral operations.

Technical environment: PostgreSQL, Java, Tomcat, Linux (Debian), document management systems.

MOE ClusterControl and HA PostgreSQL infrastructure November 2024

- **Client:** NEBRATA Consulting and Innovation – Burkina Faso

Post: System Administrator, Database Administrator

Mission: Establishment of a high-availability PostgreSQL infrastructure utilizing ClusterControl to ensure service continuity.

Technical environment: ClusterControl, PostgreSQL 16, HAProxy, Linux (Ubuntu), shell scripts.

High-availability infrastructure featuring a fallback site and Data Guard for eDounes. August 2024

- **Client:** NEBRATA Consulting and Innovation – Burkina Faso

Post: System Administrator, Database Administrator

Mission: Design and implement a business continuity architecture utilizing Data Guard and an auxiliary site for a critical application.

Technical environment: Oracle RAC 19c, Data Guard, VLAN, Oracle Linux (OL8.10), OLVM, HPE, Ansible.

Deploying and Configuring OpenMediaVault and Nextcloud

July 2024

- **Client:** NEBRATA Consulting and Innovation – Burkina Faso
- Post:** System Administrator, Database Administrator
Mission: To implement a NAS storage solution and a cloud platform for secure file management and sharing.
Technical environment: OpenMediaVault, Nextcloud, Docker, Linux (Debian), Nginx.

Trainer and Facilitator in Artificial Intelligence

December 2023

- **Client:** Simplon Burkina Faso
- Mission:** Conducting practical and educational workshops to familiarize learners with artificial intelligence and machine learning.
Soft Skill: Engaging instruction and the capacity to simplify intricate technical concepts.
Technical environment: Python, TensorFlow, Scikit-learn, Jupyter Notebook.

Full Stack Developer (Freelance)

September 2023

- **Client:** Digitelite – Burkina Faso
- Mission:** To develop bespoke web applications that address the unique requirements of clients.
Soft Skill: Autonomous project management, client communication for specification definition.
Technical environment: PHP, Laravel, MySQL, Cloud Hosting.

Full Stack Developer (Remote)

January 2023

- **Client:** TotalJs – Slovakia (Remote)
- Mission:** Engage in the development of features within an open-source framework and address bug resolutions.
Soft Skill: Collaboration in a remote international team, adherence to open-source standards.
Technical environment: Node.js, Total.js, JavaScript, GitHub.

Intern and Full Stack Developer

January 2022

- **Client:** E-Consulting BF – Burkina Faso
- Mission:** To develop and maintain applications that enhance the company's internal processes.
Soft Skill: Rapid learning aptitude and proactive approach.
Technical environment: PHP, Laravel, MySQL, Vue.js

Artificial Intelligence Engineer

October 2019

- **Client:** Juldo Service – Burkina Faso
- Mission:** Development of AI-driven solutions for automation and forecasting in client projects.
Soft Skill: Creativity and intricate problem-solving.
Technical environment: Python, TensorFlow, Pandas, Linux (Ubuntu)

AI-Driven Translator

February 2022 – July 2022

- **Client:** Afric Consulting Group (ACG) - Burkina Faso
 - **Mission:** To develop an artificial intelligence-based automatic translator that delivers accurate and contextually relevant translations across various languages.
- Soft Skill:** A creative mindset and the capacity to incorporate intricate algorithms to address tangible challenges.
Technical environment: Python, TensorFlow, PyTorch, NLTK, RESTful API, Docker

WebCrawler

October 2023 - November 2023

- Mission:** Development of a sophisticated scraping tool designed to extract data from various websites while adhering to ethical and security standards.
Soft Skill: Diligence in data analysis and management of constraints pertaining to data protection.
Technical environment: Python, Scrapy, BeautifulSoup, Selenium, PostgreSQL, FastAPI

Mission: As a Data Scientist, I played a pivotal role in the development of a groundbreaking bot for WhatsApp, integrated with OpenAI, to provide high-quality content and interactive services. I designed and executed the technological solutions that transformed TassGPT into an innovative platform for user engagement and content dissemination.

Soft Skill: Technical leadership and team management to efficiently coordinate the design, development, and deployment phases.

Technical environment: Python, OpenAI API, Flask, Web API (WhatsApp integration), PostgreSQL, Docker, Linux.

EDUCATION

Web and Mobile Web Training Programs

March 2022 - August 2022

Simplon Burkina Faso

Web and Mobile Application Development

- Defense of "FasoTuma, a platform for connecting businesses and customers"

A4 Baccalaureate

2018

- Kongoussi Provincial High School

Baccalaureate Certificate

CERTIFICATIONS

- Linux Unhatched CISCO
- Introduction to Design Thinking and Project Development
- Python
- SQL
- Ruby
- Implementation of Artificial Intelligence Solutions

PROFESSIONAL COMPETENCIES AND INTERPERSONAL SKILLS

Software Architecture and Microservices: Proficient in the design of resilient and scalable architectures utilizing microservices.

Agile development methodologies: Proficiency in agile methodologies to guarantee seamless and effective project management.

Systems modeling: Proficiency in developing UML diagrams and assessing requirements through methodologies such as MERISE.

User-centric application design: Demonstrated proficiency in developing intuitive, high-performance software solutions tailored to meet specific user requirements.

Team Collaboration and Project Management: Proficient in collaborating with diverse teams utilizing tools such as GitHub, GitLab, and Trello, while achieving established objectives and adhering to software development best practices.

SUPPLEMENTARY INFORMATION

- Languages: English, French, Spanish.
- Contact Individuals
- M. ROUAMBA HALIDOU: Director General, Neb'rata Innovation (+226 75 55 90 91)
 - Mr. Bagre Dominique: Representative for Simplon Burkina Faso (+226 71 97 09 16)
 - M. LANKOANDE Lionel: Chief Executive Officer, Digitelite (+226 61 51 51 37)

ATTESTATION

I, the undersigned, hereby certify, to the best of my knowledge, that the information provided above accurately represents my circumstances, qualifications, and experience. I acknowledge that any intentional misrepresentation may lead to my disqualification from this request for proposals process.
